“ *I was saddened to see of Gayla's passing. I do know that from our conversations that she is in a far better place where she is totally heathy! Knowing that doesn't mean we who knew her do not miss her.*

I worked with Gayla over quite a number of years at Walmart, having started there shortly after she did. She was a fine civil engineer who shared her expertise with those of us who hadn't her training or background.

She was part of a small lunchtime group that enjoyed talking about family and life and we all enjoyed this time many days. It eased the stress of the job pressures.

I pray that the family will be comforted through this time of grieving.
