“ *I would have to say my mother did not raise me but when I got married and had my kids, there were times we would just laugh at the things we did do together. We went fishing once and I caught the biggest fish. We went to bingo alot but never won. I remember when she did my daughters hair in her salon,she loved to do hair and having her own salon. Mom loved people to be around all the time. We had alot of laughs together and crys together. No matter what anyone says she is still my mother and I loved her with all my heart.*

“ My condolences to all of you as you grieve a special lady. She was my sister-in-law for many many years, and still I really didn't know her children. I will miss her.
