“ I was saddened to read of Marie's passing. I was one of her therapists at Northwest Med. Center Rehab. She was my most extraordinary patient and very special to me. Her willingness to work hard and attention to every detail we worked on gave her better results than almost every other stroke patient I've ever worked with. I'm so glad I was able to see her when she was in the hospital after her leg surgery recently.
Please accept my sincere condolences. Jane, PTA
